

Provenance des Juifs déportés à partir de la France

From where came the Jewish deportees from France

[Jean-Pierre Stroweis](#)

Les tableaux ci-dessous présentent la distribution géographique des lieux de naissances des personnes inscrites dans le Mémorial de la Déportation des Juifs de France en ligne. En Juin 2019, le lieu de naissance de 73 591 personnes (93% des personnes) est maintenant identifié.

Cette distribution est effectuée soit par pays (Table 1), soit par pays et par région administrative (Table 2), selon les frontières de 2019. Cette population provient de 6 400 localités différentes réparties sur 74 pays, ce qui illustre sa grande diversité. Les plus gros contingents sont originaires de Pologne (22 785 personnes, soit 31.0%), de France (19 440 personnes, 19.4%), et d'Allemagne (9 017 personnes, 12.3%).

Pour obtenir la répartition des lieux de naissance en fonction des frontières en vigueur en 1938, on pourra ajuster ces chiffres, en ajoutant ou soustrayant les données des provinces qui sont passées d'un état à un autre. Voir la Table 3 à ce sujet.

Les tables sont classées par ordre alphabétique du nom des pays en anglais.

The tables presented below show the geographic distribution of the birthplaces of the persons listed in the online Memorial of the Deportation of the Jews from France. As of June 2019, the place of birth of 73,591 persons has been identified, i.e. 93% of the entire list.

This distribution is given either per country (Table 1) or per country and per their administrative regions (Table 2), according to the 2019 frontiers. This population comes from 6,400 distinct localities spread on 74 countries, expressing its wide diversity. The largest groups are from Poland (22,785 persons, i.e. 31.0%), France (19,440 persons, 19.4%) and Germany (9,017, 12.3%).

In order to obtain the distribution of the birthplaces according to the pre-war frontiers, it is possible to adjust these figures, by adding or removing the numbers of the regions that switched from one state to another. This is done in Table 3 for a few countries.
